

Modernize VMWare Workloads Faster

Avoid 80% failure rate in agentic projects — start with strong foundations.

Broadcom's VMware acquisition drove costs up by as much as 10X. Companies had to decide whether to migrate or absorb skyrocketing fees.

CHALLENGES

- Limited in-house cloud expertise
- Uncertainty on where to start Security and compliance concerns
- License renewal deadlines adding pressure

THE FASTEST PATH FORWARD

Adopt a lift-and-shift migration to AWS for immediate cost control and risk reduction — while building a foundation for modernization and AI readiness.

WE HELP COMPANIES

- Save 25% or more in migration costs
- Reduce risks associated with migrations
- Establish a cost-effective platform engineering strategy for ongoing savings and ROI

Optimize costs by paying just for what you use and scale in, out, up, and down

Reduce management overhead by undertaking AWS Managed Services

Enhance your security posture and compliance

Simplify and enhance your disaster recovery and business

Increase business agility and time-to-market

Empower your business through modern applications

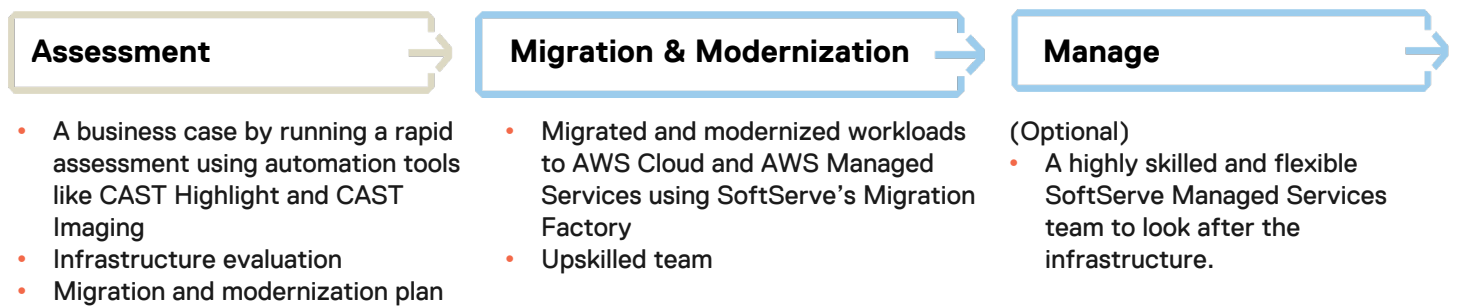

Make your business more sustainable

Maintain and support post-migration

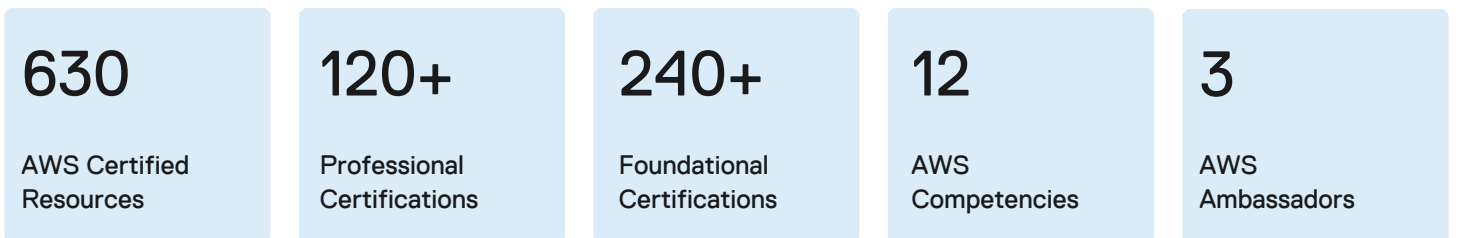

HOW DOES IT WORK?

1. Begin with a flexible assessment that focuses on the organization's priorities.
2. Use SoftServe's accelerators that help with migrations, such as:
 - AWS Landing Zone customizations addressing security, compliance, and regulatory requirements.
 - SoftServe's rvttools2aws to better understand and optimize future AWS infrastructure costs.
3. Transfer your VMWare skills to AWS skills and get your team's AWS certified.
4. Include an optional pre-validation pilot.
5. Rely on SoftServe's proven Migration Factory with a safe and fast roll-back.
6. Benefit from comprehensive post-migration maintenance and support.
7. Leverage AWS funding programs to mitigate your migration investment. *

APPLICATION SELECTION CRITERIA

* AWS funding programs for migration and modernization are available. Migration and modernization can be partially or fully covered by available funding, provided projects meet all eligibility criteria.

GLOBAL AWS PARTNERSHIP

As a Premier Tier Services Partner, SoftServe is an exceptional cloud guide that vastly decreases the time to cloud value while ensuring your cloud projects are deployed within AWS Well-Architected best practices.

Our AWS clients have come to rely on our speed, agility, and scalability as a non-reseller, agnostic service provider. We can deliver end-to-end solutions to the most complex enterprise challenges-ensuring our clients achieve the most benefit from AWS investments.

Stop paying 10X VMware costs.
Migrate and modernize now and get AI-ready.
